

Annata Dynamics DMS is a modern, fully integrated solution for the automotive, construction, material handling, agriculture, and forestry equipment dealers.

It is built as an add-on to the Microsoft Dynamics AX ERP system and uses the standard features of Microsoft Dynamics AX, as well as extensive additional features specifically designed to support the automotive, construction and agriculture equipment business. It handles all key business processes during the entire vehicle's/equipment's lifecycle and allows to analyze it in a simple and readable way using Annata Analytics tools.

What do you gain?

- Globally respected Dynamics ERP solution from Microsoft supported with the Annata Dynamics DMS add-on
- Certified solution which follows Microsoft's best practice methodology which minimizes upgrade efforts and version handling.
- Full integration of all key business processes driven by industry specific needs and developed by experts
- Professional and competent service, delivered by Annata and a strong team of IT partners recognized around the world
- A reliable, constantly evolving solution with a managed continuous development schedule that is closely aligned to Microsoft's Dynamics AX development plan.
- Powerful, but easy to use analytic tools
