Dynamics IDMS

Manufacturing Management Solution for Dynamics AX

Annata Dynamics Manufacturing is a flexible, fully integrated solution for material handling, construction, agriculture and equipment manufacturing companies.

It is built as an add-on to the Microsoft Dynamics AX ERP system and uses the standard features of Microsoft Dynamics AX, as well as extensive additional features specifically designed to support the equipment manufacturing business. It handles all key business processes during the entire equipment's lifecycle "from cradle to grave" and allows to analyze it in a simple and readable way using Annata Analytics tools.

Annata Analytics

Providing you with a 360° view of your vehicles/equipment

Configuration

→ **Advanced configuration**

Configure vehicles individually using the specially designed vehicle / equipment configurator: with predefined variants, options, components, accessories, etc.

Production

→ **Information tracking**

Track all vehicle / equipment related transactions / information throughout the entire lifecycle.

→ **Easy document handling**

Create documents using document templates and control visibility across multiple locations.

→ **Vehicle/Equipment creation**

Sales

→ **Loans**

Manage vehicle / equipment loans, calculate interest rates and create collections.

→ **Spare parts management**

In addition to the standard storage management features, use the complete manufacturers spare parts catalog integration together with additional functions specially designed to improve parts handling.

Service

→ **Mechanic resource planning and management**

Control your human resources, plan work and manage the allocation of service orders.

→ **Service and maintenance contracts**

Create service/maintenance contracts and collect monthly fees.

→ **Maintenance plan templates**

Set up a maintenance plan structure and assign it to vehicles / equipment.

→ **Warranty claims**

Create warranty claims based on service orders and process them through to the manufacturer (interface). Streamline this process using the automatic claim validation system.

→ **Service campaigns**

Create sales campaigns and add extra discounts or accessories for certain vehicles or vehicle groups.

→ **Service history**

log vehicle's full service history including claims, recalls and maintenance plans.
